

# International granting

Now you have a quick, safe, cost-efficient way to support any charity in the world

Can you imagine if your favorite overseas charities had all the resources they needed for their important work? Now you can fund them and any other international charity with just a few clicks. And this means they can raise donations from all over the globe at very little cost.

If you've ever tried to fund a charity outside the United States, you know how expensive and complicated the process can be. Each recipient must be thoroughly researched to ensure legitimacy, and each country has its own set of complex government and banking regulations.

But NCF is simplifying the process by teaming up with the TrustBridge Global Foundation. Together, we're building a global charitable platform to significantly lower the cost, time, money, and hassles of cross-border grantmaking so more resources flow to the areas of the world that need it most.

## Charity submits application

NCF connects you with a team member at TrustBridge, who guides you and the overseas charity through an application process.

## You recommend a grant

Once the charity is approved, you recommend a grant to TrustBridge from your Giving Fund at NCF.

## Charity receives support

TrustBridge sends funds to the charity, and now that they're approved, anyone anywhere in the world can support them, too.
